

PANKAJ VAIDYAKAR

Full-Stack & Blockchain Developer

About Me

I'm Pankaj Vaidyakar, a Full-Stack Developer who loves creating fast, responsive, and scalable web applications. I turn ideas into clean, functional, and user-friendly digital experiences

PROJECTS

Project: Food-Hut website & ToDo App
Technologies : HTML,CSS,JavaScript

- Designed and developed a responsive Food Hut website using pure HTML, CSS, & JavaScript
- Implemented product listing, add to cart, and cart item count functionality
- Used JavaScript DOM manipulation for dynamic content updates
- Created a user-friendly UI with clean layouts and responsive design
- Ensured cross-browser compatibility and smooth user experience
